FATE OVERTAKES OLD COMRADES

Martin Haley—Struck by a Train, While Sheldon Post Is Dying at Home

APPOINTED AT SAME TIME

Donned Police Uniforms Together Twenty-three Years Ago; Haley May Recover

As he stepped from behind a box car where he had been lying in wait for a number of tramps, Martin Haley, Sr., Burlington night watchman, was struck by north bound passenger train No. 47 at about 3:15 this morning and hurled through the air for several feet, sustaining three severe skull wounds, three fractured ribs and two fractures of the left arm.

At almost the same moment, Sheldon S. Post, died at his home, 1553 George street. Twenty-three years ago, Sheldon Post and Martin Haley were simultaneously appointed patrolmen of the La Crosse police force and assumed their duties at the same time.

Struck by Train

Martin Haley, who is watchman of the Burlington yards, had been standing near the Segelke-Kohlhaus offices on South Second street, to prevent any tramps from boarding the passenger train as it pulled out. As he attempted to cross the tracks, the view of the incoming passenger was momentarily cut off by a string of freight cars, standing on a siding. As he stepped from behind the box car, he was struck by the engine and hurled through the air, clear of the track.

He was discovered by the engineer of south bound passenger train No. 50 as it pulled out of the depot a few moments later, the headlight falling upon his body which was lying within a few feet of the track. He was hurried to the La Crosse hospital where a surgical operation was performed. Information given out at the hospital this afternoon is to the effect that his chances for recovery are favorable.

Owing to the fact that most of his injuries were on the left side of the body, it is believed that he saw the train and attempted to turn back but was unable to step from the track in time to avoid the train. A tramp who was riding on the head end of the engine said that he heard a groan but thinking that the train had struck a dog, made no report of the matter to the train crew.

Post Dies

Sheldon Post, who has been night sergeant of the La Crosse police force for the last fifteen years, died this morning after a month's illness of bowel trouble.

Mr. Post was born in Huron county, Ohio, September 2, 1845. He was appointed night patrolman June 30, 1889 and after eight years' service was promoted to night sergeant, which position he held until his death. Mr. Post ranks third in length of service having been on the force for twenty-three years.

Chief of Police John Webber, when speaking of Sergeant Post today said: "Post was one of the best men who ever wore a uniform. He always performed his duty with a consciousness and faithfulness that deserved the highest possible praise and was one of the most popular men on the force, both with his brother officers and the general public."

The funeral services will probably be held at the Caledonia Street M. E. church at 2:30 o'clock Saturday afternoon and burial will be made in the Oak Grove cemetery.

Correspondent and Bride Adopted By Indians

ST. MARYS LAKE, Mont., Sept. 11.—One of the strangest wedding ceremonies ever performed in the Blackfeet country took place here today when Three Bears, chief of the Blackfeet tribe, "re-married" Robert Heintz, Washington correspondent of Leslie's Weekly, and his bride of a few days, formerly Miss Helen Corbin of Indiana. The ceremony is equal to a formal adoption by the Blackfeet tribe. Thirty Indians, mostly grass dancers, created much excitement among the tourists in performing their weird ceremony. Heintz's given Indian name is Black Eagle, and his bride was named Small Woman.

VIENNA, Sept. 11.—Fighting has broken out on the Turko-Bulgarian frontier, according to messages received from Constantinople today.

It is said the Bulgarians opened hostilities by firing from a frontier fort upon a Turkish patrol. The Turks returned the fire, killing five Bulgarians. Bulgarian reinforcements soon came up, whereupon the Turkish commander ordered the Mohammedan peasants in the vicinity and added them to his force. The battle raged all day with many casualties.

Following so soon upon the bomb explosion, for which it is charged Bulgarians were responsible, resulting in twenty deaths at Doiran, near Salonika fears are expressed here that the frontier clash will render war a certainty.

Turks Start Troops

CONSTANTINOPLE, Sept. 11.—The Turkish war office dropped all concealment and began rushing troops toward the Bulgarian frontier today. The government evidently has lost its temper over Bulgaria's badgering Macedonia, today a cabinet minister characterized this as "impertinent interference with Turkey's international affairs."

J., Sept. 11.—John Lewis Smith of Washington, was eliminated from the race for commander-in-chief of the United Spanish War veterans, when it was announced today that illness in his family would prevent his acceptance. 12,000 VETERANS MARCH IN PARADE

200,000 Spectators See the White-haired G. A. R. Soldiers in Long Procession

TO ELECT NATIONAL OFFICERS

Colonel Beers of Connecticut Leads in Race for Commander-in-Chief

LOS ANGELES, Cal., Sept. 11.—With heads held high and drooping shoulders squared, 12,000 veterans today marched in the annual parade, the present event of the National G. A. R. encampment. Though the ranks are rapidly thinning, it required more than three hours for today's procession to pass and 200,000 spectators lined the curbs or were massed on buildings and reviewing stands. The greatest care was taken to prevent any of the aged veterans being overcome during the long march, and while sons and daughters marched with some of the older men, arrangements were made to care for any who might be forced to drop from the ranks.

It was well after noon before the last tired company disbanded.

The national convention of the Daughters of Veterans, the Woman's Relief corps and the Ladies of the G. A. R. were called to order today. Every park and many churches were requisitioned for the state and national gatherings. To night camp fires are scheduled for the various state and national commanders, while the relief corps will receive in the Alexandria hotel ball room for Commander-in-Chief Trimble and his staff.

National officers will be chosen Friday. Colonel Albert Beers of Connecticut is leading for commander in chief, though George Tibbets of Washington was being boomed today. Captain O. Z. Osborne, Los Angeles, will likely be named senior vice commander; Americus Wheaton, Kentucky, junior vice commander; Dr. George Lovejoy, Boston, chaplain in chief.

Detroit and Denver lead in the race for next year's encampment. Seattle is working for the 1915 encampment.

RACE WAR NEAR AT BLUEFIELDS

Negroes and Whites on Verge of Clash Because of Recent Lynching

ORDER NEGROES TO MOVE

Colored Business Men Arm to Resist After Being Told to Leave Shops

BLUEFIELDS, W. Va., Sept. 11.—The situation here following the lynching last week of Walter Johnson, the alleged assailant of Little Nita White, is threatening today. Although it is now generally admitted that the mob killed an innocent man, animosity of the whites toward the negro population has grown in intensity and a race war appears to be imminent.

All negro business men in Raleigh street received letters late yesterday telling them to move from the street by Saturday night or they would be dynamited. The letters were signed "Lynching committee." All negroes are excited and are arming themselves. The sending of the threatening letters has added fuel to the flames and with the negroes arming themselves with rifles against the whites, loss of life is likely to follow. The governor has been appealed to by influential citizens to send troops here as a precautionary measure.

WOULD PHOTOGRAPH CONDEMNED HOUND

Two dogs, one belonging to Mrs. Housem, Market street and the other to Mrs. Charles Stein, were killed by Patrolman M. Britton yesterday by order of Police Judge Edward Cronin. The women will hold their convention here this week.

LAWYER'S CLIENT FOUND STRANGLER

Autopsy Shows Death of Mrs. Szabo Due to Violence and Not Drowning

GIBSON ASSERTS INNOCENCE

Attorney Returns to Home Under Guard and Declares He Is Not Guilty

MIDDLETON, Conn., Sept. 11.—Following a conference with assistants today District Attorney Rogers of Orange county said that as soon as he could get his witnesses here from New York and get their evidence reduced to affidavit form he would apply for a warrant for the arrest of Attorney Burton W. Gibson of Rutherford, N. J., and New York, charging him with the murder of Mrs. Rosa Szabo. The district attorney spent most of the night in his office, conferring with the men he had assigned to work on the case.

He also carefully examined the report of the doctors who performed the autopsy on Mrs. Szabo in Jersey City yesterday in which they stated that death was due to a misplaced Adam's apple and general displacements of the windpipe, showing that strangulation was the real cause of death.

Watched by Detectives

District Attorney Rogers has made arrangements with the Pinkerton detectives who have Gibson under surveillance to see that he is kept within the jurisdiction of the New York courts following his arrival in New York today until Judge Royce acts.

As soon as the arrest is made Rogers plans to present only enough evidence to warrant the holding of Gibson for the grand jury. He said that his offices are working on developments in the case which will prove even more sensational than the facts already known.

At 3:30 this afternoon formal application for a warrant charging murder against Burton W. Gibson, the New York lawyer, in connection with the death of Mrs. Rosa Menchik Szabo, was ready for filing and the warrant awaited only the signature of Judge Herbert C. Boyce of the Orange county court. District Attorney Rogers was waiting only for the arrival of Coroner's Physician Schultze of New York, who was in charge of the autopsy, who was expected on an afternoon train to make affidavit that Mrs. Szabo, supposedly drowned in Greenwood lake, July 26, while in company with Gibson, was strangled to death.

Application for the warrant would charge that Gibson choked her to death, Rogers said.

Detectives were waiting for an automobile, ready to hurry with the warrant to New York and arrest the lawyer in his Liberty street office, where he had remained all day, under surveillance of detectives.

NEW YORK, Sept. 11.—Attorney Burton W. Gibson, for whose arrest on a murder charge District Attorney Rogers of Orange county says he will apply before night, came to his office from his home in Rutherford shortly before 9 o'clock today. He was under guard of two detectives through the night and the men accompanied him back to this city.

Gibson maintained his attitude of innocence today. It is known by the officials who will prosecute him that he lays great stress on his statement to the doctor who treated him after his rescue and who examined Mrs. Szabo's body. The doctor admits that Gibson told him Mrs. Szabo threw her arms around his neck and dragged him down and that he had great difficulty in releasing himself.

T. P. BENTON IS DEAD AT HOME

Founder of T. P. Benton & Son Firm Passes Away This Morning

HERE MORE THAN 50 YEARS

Born in New York, Pioneer Came to La Crosse While Child of Twelve

Thomas P. Benton, 218 South Sixth street, for many years a resident of La Crosse, died of heart failure at his home at 1:50 o'clock this morning. He had been in poor health for several years and failed gradually until his death this morning.

Mr. Benton was seventy years old. He was born in Jamestown, N. Y., on February 1, 1842. He came west with his parents when he was a child and settled in Sheboygan county, Wisconsin. When he was twelve years old the family moved to La Crosse county. In 1878 he came to this city, where he has resided ever since. For ten years, from 1868 to 1878, he owned and operated a steamboat on the Wisconsin and Fox rivers.

T. P. Benton founded the concern of T. P. Benton & Son on Front and Pearl streets in 1890. The concern remained there until three years ago when, after a fire in its block the shop was moved to 106-108 Pearl street and T. P. Benton retired. The firm is now being operated under the name of the Benton Electric company, with W. F. Benton, T. P. Benton's son, in charge.

Surviving Mr. Benton are his widow, one son, W. F. Benton, one daughter, Mrs. Alice Vought of New York City, and two step children, Mrs. W. A. Pryor of this city and D. C. Jenks of Tennessee.

CHARGES JUDGES WITH GRAFTING

Police Magistrates of West Hammond Are Accused of Crookedness

THEY FINED WRONG PARTIES

Divekeepers Released from Custody and Complaintants Forced to Pay, Is Charge

CHICAGO, Sept. 11.—Assistant County Attorney Thomas Johnson filed information in the county court before Judge Owens today against Frank Greene and Charles Wittenberg, police magistrates of West Hammond and Burnham, Ill., respectively, charging the two justices with conspiracy, extortion, malfeasance and embezzlement. The charges are a direct outgrowth of the crusade of Miss Virginia Brooks to "clean up" politics in West Hammond. According to Johnson, Greene and Wittenberg have been assessing litigants with exorbitant costs and pocketing the money. He charged that it was the custom to release from custody divekeepers arrested in Miss Brooks' crusades and sometimes, he asserted, the complaining crusaders were fined. Judge Owens, who will hear the cases, may assess the defendants \$1,000 fine and remove them from office, or he may order them held to the grand jury on the criminal charges. No date was set for the hearings.

PORTLAND, Me., Sept. 11.—Roosevelt progressives today set to work in earnest to capture the state for the colonel in November following Governor-elect Haines' confirmation of the report that on the night of his election he declared himself a Roosevelt republican and believer in "the square deal" policies of the "great Theodore Roosevelt."

Alligator Escapes On Ohio River; Hunt Is On

LAWRENCEBURG, Ind., Sept. 11.—An alligator hunt is on today along the Ohio river, while James Quantrell, a snake trainer of Chicago, is suffering from snake bites as a result of the reptile's escape from a show boat. During a theatrical performance, the twelve foot alligator escaped from its tank, broke open a cage of snakes, ate several, and then slid off into the Ohio river, after upsetting an attendant who tried to impede its progress. Quantrell was bitten while trying to replace in the cage the snakes that had escaped during the excitement, and threatened to crawl among the audience.

ELECTION PUZZLE STILL UNSOLVED

McDonald Postpones Filing of Notice of Contest with Election Board

AIKEN IS STILL UNDECIDED

May Ask for a Recount of Seventeen Precincts; Official Returns Completed

The situation which the election board has been wrestling with for the last week is no nearer solution today than it was at the start. The filing of notice of contest by George McDonald, owing to the loss of second choice votes in five of the precincts, has not yet been made owing to the fact that his attorney, Otto Bosshard, is out of the city.

F. H. Aiken, candidate for county treasurer, today declared that he has reached no decision as to whether or not he will ask for a recount.

He said: "If I do ask for a recount it will be in only 17 of the precincts. I base my rights for a recount upon the fact that in many of the precincts both Mr. Freehoff and myself received votes from the same person, owing to confusion relative to the second choice provision. Under the provisions of the law, if the voter puts a cross after both names, the vote counts for the candidate whose name is first on the list."

Following are the official returns as counted by the election board:

MOOSE WILL NOT PICK STATE SLATE

Badger Third Party in Convention Today at Milwaukee Is Against Ticket

ATTACK SEN. LA FOLLETTE

Moosers "Rough-house" Bob a Little and "Organ" Hands Him Cautious Uppercut

MILWAUKEE, Sept. 11.—While avoiding direct reference to him in the most bitter portion of his address, Medill McCormick, national vice chairman of the bull moose organization, attacked Senator La Follette in the bull moose state convention here today. In the convention were a number of men of recognized standing in the progressive organization, together with many more whose standing would not be unquestioned. Recognized foes of La Follette were joined by some who have until recently been regarded as his friends in applauding McCormick's talk.

That La Follette was the object of the attack was made plain beyond doubt when McCormick used the senator's name in connection with the assertion that although La Follette now declares Roosevelt unfit to lead the progressive cause, he at one time asked the colonel to run for the presidency and promised to support him; that later La Follette had expected Johnson and Roosevelt to support him for the presidency.

Before the opening of the convention it was practically assured that there would be no third ticket in the field in this state. McCormick and Henry F. Cochems are here from Chicago to defeat any plan to nominate a bull moose ticket, and they said today that they were sure of support enough to carry the state with the republican ticket headed by Governor McGovern.

Johnson to Speak

Governor Hiram Johnson, progressive candidate for vice president, who was scheduled to speak at the state fair grounds early this afternoon, was late in arriving on account of a delay in making train connections between Detroit and this city. A large crowd gathered at the fair grounds to hear the California governor, settled down to wait patiently for his arrival when it was announced that he would not be able to reach here until late in the day.

"The Bull Moose," a 4-page paper published as the official organ of the progressive party of Wisconsin, was issued today. The paper is to be issued weekly.

On the front page of today's issue, a cartoon by John T. McCutcheon is reproduced from the Chicago Tribune, showing Col. Roosevelt and Gov. Johnson reaching across the continent to shake hands. In separate paragraphs on an inside page are seen thrusts at Senator La Follette. Samples of them follow:

Raps at La Follette

"There is nothing in following a man the wrong way simply because he won't follow anybody himself."

"There are no dividends in loving a man merely for what he used to be."

"No man remains a leader who turns counter to the cause which he aspired to lead."

The convention hall was opened at 9 o'clock this morning and delegates loafed about the hall waiting for Norman L. Baker to call the convention to order at 1 o'clock.

To Attack Bob

Great interest was manifest by the delegates in what Senator Miles Pindexter of Washington would say in his address this afternoon. It was understood that his speech would contain a vigorous attack upon Senator La Follette, and there was some doubt as to how it would be received. Wheeler P. Bloodgood, of Milwaukee, was another of the chief speakers for this afternoon.

Following the speeches, if there is manifested any disposition to place a third ticket in the field, McCormick, Cochems and their aides plan to force an adjournment.

CHICAGO, Sept. 11.—The colonial government of Australia made a direct appeal to the United States here today to aid in what they declare is one of the greatest settlement projects of a decade. The divorce suit filed by Mrs. Kramer was suddenly withdrawn. Kramer's pledge to "be good" was today filed with the clerk of the circuit court. It says:

"I, Georgia Kramer, have decided it best to withdraw my suit for divorce, providing Nicholas Kramer will agree to amend his ways. My demands are as follows:

"He must desist from grouchy growlings over things I cannot help. He must be more sociable and treat my people right when they come to see me.

"He must be willing to take his family out on holidays for recreation.

"He must clean up on Sunday. He must desist from hard swearing around the house."

Nicholas accepted the terms in the following pledge:

"I, Nicholas Kramer, do faithfully promise I will comply with each of the foregoing requests, and will pay \$35 for costs of the divorce suit."

TOMAH, Wis., Sept. 11.—H. W. Battalia of Tunnel City has offered a reward of \$150 for the arrest and conviction of the party who entered his general store in that village last Friday night and secured currency to the amount of \$1,500. The thief is supposed to have secreted himself in the store till everything was quiet, and then made his escape with the money. The greater part of the money belonged to Winship and Co., grain dealers, who had left the money with Mr. Battalia to use in cashing the farmers' checks. Sheriff McFadden was on the ground Saturday and although no arrests have been made every effort is being put forth to capture the guilty party.

ACTRESS GETS JOB IN CLEVER WAY

Roxanne Lansing.

In the wake of a series of telegraphed bulletins which had announced the stages of progress on her trip from the city of Mexico to New York, Miss Roxanne Lansing arrived in the latter city recently. From the Pennsylvania terminal she drove in a taxi directly to the offices of the theatrical manager to whom the wires had been sent, there identified herself as the sender and announced that she was prepared to sign a contract. She was successful and will be given an important role in a new play which will be staged in November.

The theatrical manager complimented the girl, who is half Mexican, on the clever manner in which she had attracted attention to her individuality. Her messages were sent from Mexico City, El Paso, New Orleans, Atlanta and Washington.

FISHER'S REPORT DUE

SECRETARY OF INTERIOR'S FINDINGS IN RELIGIOUS GARB MATTER TO BE PUBLISHED SOON

WASHINGTON, Sept. 11.—One immediate result of the resignation of Commissioner of Indian Affairs Valentine to join the progressives is expected to be the publication of the report of the Secretary of the Interior Fisher on the religious garb controversy. Valentine denied to Catholic teachers on the Indian reservations the right to wear their costumes, but soon afterward President Taft revoked the order and directed Fisher to investigate. His report has been in the hands of the president several months and it is now expected that it will be made public.

It is generally expected here that, no matter what the decision is, a general religious controversy will be precipitated.

\$7,000 IS COST OF BADGER PAMPHLET

State Pays \$2,000 for Political Booklet and the Candidates Put Up the Rest

MADISON, Wis., Sept. 11.—It required an investment of over \$2,000 on the part of the state in addition to the nearly \$5,000 contributed by political candidates, to get the 340,000 political pamphlets to the voters of Wisconsin before the primary election law. Under a law enacted at the last session of the legislature candidates for office were permitted to appear in a campaign booklet upon a payment varying according to the office sought. In all \$4,670 was collected from candidates. It required \$3,400 for postage stamps to mail the pamphlets to all the voters of Wisconsin. In addition to this there was the expense of obtaining the list of voters, arranging the pamphlets, addressing the envelopes, and the cost of paper and printing. These items alone will aggregate \$3,000 or \$4,000 and the deficit is paid out of the state treasury. It has been proven that the pamphlet is not a self-supporting medium.

A pamphlet similar to the one mailed prior to the primary election will be mailed again to all voters ten days previous to election. It is expected that this booklet will be much larger than the primary one, for many of the primary election candidates had no opposition and of course did not appear in the pamphlet. Assistant Secretary of State L. B. Nagler said today that the copy for the election pamphlets must be in the hands of the secretary of state not later than Sept. 26th. This will necessitate all of the candidates sending their copy to the state department within a few days after the platform convention to be held here Sept. 17th.

PRAIRIE DU CHIEN.

The death of Miss Mona Wagner, only child of Mr. and Mrs. W. H. Wagner, occurred Tuesday afternoon at the Prairie du Chien sanitarium following an operation for acute appendicitis performed a week ago. Though not entirely unexpected her death is a shock to the entire community whose sympathy goes out to her bereaved parents. Miss Wagner was eighteen years of age, a graduate from the city high school last June, a beautiful girl with many accomplishments and beloved by a large circle of friends. The funeral arrangements await the arrival of relatives residing at a distance. Roy Hurley leaves in a few days for Northwestern University, Evanston, where he will take a course in dentistry.

The Wagner family is doubly bereaved, the death of Mrs. Hiram Wagner, whose husband and W. H. Wagner are brothers, having occurred on Monday at the family home on Minnesota street, after a long and

painful illness. Mrs. Wagner is survived by her husband, three daughters and two sons. Her funeral takes place this afternoon.

Mr. and Mrs. Alexander Frederick are visiting in Bloomington.

Mr. and Mrs. David Slightman have moved into the Caspar Wachter residence in the Second ward.

While waiting at the Fourth ward depot to take the midnight train to Milwaukee Monday night, Sol Lariviere had his pocket book containing a sum of money and valuable papers stolen. When ready to buy his ticket Mr. Lariviere missed his money but at that time was unable to secure the pick pocket.

Mrs. J. C. Rowley and daughter, Louise, arrived home Monday evening from a visit of several weeks in Chicago and Milwaukee.

Mrs. Josephine McCormick of Soldiers Grove is in the city for a few days.

Tells Positive Cure For all Foot Troubles

Science has proven that nearly all foot troubles originate from a common cause: that of injured tissues. The following information will be welcomed by thousands of victims of daily foot torture. No matter how many patent medicines you have tried in vain, this treatment which was formerly known only to doctors, will do the work. Don't waste time. Get it at once. "Dissolve two tablespoonfuls of Calocide Compound in a basin of warm

water. Soak the feet for a full fifteen minutes, gently rubbing the sore parts." The effects are marvelous. All pain disappears instantly and the feet feel simply delightful. Corns and callouses can be peeled right off. Bunions, aching feet and sweaty smelly feet get immediate relief. Use this treatment a week and your foot troubles will be a thing of the past. Calocide works through the pores and removes the cause. Any druggist has Calocide in stock or will get it from his wholesale house. Don't be influenced to take something else instead. A twenty-five cent box is said to be enough to cure the worst feet.

SAYS MINERS ARE KEEN FOR RIGHTS

Miners' Journal Declares Strikers Will Never Submit to Guard System Again

INDIANAPOLIS, Ind., Sept. 11.—That the West Virginia miners will never again submit to the rule of the mine guards employed by the operators was the declaration in an editorial today appearing in the Journal, the official organ of the United Mine Workers of America, commenting on the present situation in the Kanawha district.

"If a peaceful solution of the questions that brought on the strike can be reached, the miners will abide by the laws as administered by the properly elected officials whose duty is to carry out the law," the editorial declared. "But never again will they submit to be held helpless by a body of men responsible to no one but the mine owners who hire them, whose idea of the law is naturally enough the interests of the men who hire them, and regardless of whom they may injure."

Another editorial: "The money West Virginia operators spend in order that they may keep their men from organizing would go far toward keeping those men contented when organized."

"Both could be dispensed with under the reasonable rational order that would ensue if the operators would consider the employees as rational, practical men, with a stake in the prosperity of the mines they work in."

PROGRESSIVES WIN COLORADO

Radicals in Both Parties Sweep State in Yesterday's Primaries

DENVER, Col., Sept. 11.—Progressives in both parties swept Colorado in the state-wide primaries held yesterday. Although returns were still incomplete today, it was evident that Philip B. Stewart had been nominated for governor on the republican ticket, and Elias M. Emmons on the democratic ticket. Progressive candidates for all other offices were nominated with them. The Roosevelt forces endeavored to get Stewart to withdraw from the old party and join the bull moose, but he refused and will now be opposed by Edward B. Costigan, the bull moose candidate, entered by petition, in the regular election. Stewart was nominated by a big majority.

Governor John F. Shafroth and Charles S. Thomas have been nominated for United States senators. James H. Brown has been nominated for the short term in the senate by the republicans and the race between Merle D. Vincent and Clyde D. Dawson is still in doubt.

Judge Ben B. Lindsey was re-nominated for juvenile court judge by the democrats in Denver.

Helen Ring Robinson was nominated for the state senate from Denver, but Katherine Williamson, candidate for congress, was defeated.

TAFT TO GET PIE

BEVERLY, Mass., Sept. 11.—President Taft decided today to visit his Aunt Della who "used to make apple pie for Will." The president is going to attend the wedding of a friend of the family near Worcester on Saturday and he will grasp the opportunity to see his aunt and perhaps get a replica of the slabs of pie of which Aunt Della says he was so fond when a boy.

LINER IS WRECKED

LONDON, Sept. 11.—The Hamburg steamship Kamerun is totally wrecked on the Liberian coast, according to a dispatch received today at Lloyds. No details are available.

A Prayer.

We receive out of the dark hand of mystery the gift of sunny days. We pledge ourselves to take them with a hearty will, and live them out to the full measure of the power of joy—yet never with a loose or temporary mind. In the moments we will not forget the hours, nor in the hours the years, nor in the years the complete stature of our lives, framed in eternal silence.—Max Eastman in the Twentieth Century Magazine.

Her Fellow Feeling.

The children had been disobedient and troublesome, and the mother, instead of punishing them, brought them into line by telling them a pathetic story of orphans who had no home. Little Jack, in tears, rolled under the sofa to hide his grief. Mary stood out a little longer, and then called: "Come on out, Jack; I'm crying, too."—Lippincott's.

Boy Owes Life to Dog.

A number of young boys were playing on the banks of the Bolton and Bury canal at Pendleton, near Manchester, England, the other afternoon when one of them slipped into the canal, which is nine or ten feet deep. A retriever dog playing near by at once jumped into the water and brought the boy to a place of safety.

Deserves No Credit.

"When a man can do a thing that you can't," observed the philosophical boarder, "you generally explain it on the theory that it's nothing for him to be proud of—he's merely gifted in that direction. Can I have another cup of coffee, Mrs. Irons?"

Her Faith Lost.

A little Boston girl was coaxed to own to her aunt that she had done something which she ought not, and which she stoutly denied. Finally, such undeniable proof of her guilt was put up before her that she could no longer keep her denial. She turned to her aunt, and said: "Well, Aunt Kittie, you can't trust anybody, nowadays!"

All Creation.

When a woman puts powder on her face it is assumed she is endeavoring to improve her complexion and to fool the men folks in regard to it. But when she is married and her husband has to buy the powder, it is not impertinent, we think, to ask who the heck is she trying to deceive now?—Concordia Kansan.

Some Proof.

"So he took you out auto riding the other evening?" "Yes, what of it?" "Do you think he is in love with you?" "I think so. I know that every time I spoke to him the auto tried to climb a tree or jump a fence."—Houston Post.

Bacteria Not Necessary.

Though bacteria of many kinds live in most animals, a French experimenter has disproven the theory that they are essential to life. It was claimed that a chicken lived absolutely free from micro-organisms, and growth and development went on as usual.

SOME SENSIBLE TIRE TALK

VULCAN UNGUARANTEED TIRES

The man who buys "Guaranteed for Mileage" tires and uses them judiciously, helps to pay for the tires that "the other fellow" buys and abuses. Why help to pay for the other fellow's tire bill? Why not buy and sell tires like other merchandise? How do you buy your shoes or clothes? Not on a mileage basis, of course. If they give satisfaction you buy others of the SAME make. If they DON'T, you buy different ones.

Why shouldn't you buy your TIRES on the SAME basis? Why should you pay 25 per cent additional for the tire maker to hold for you—to fight for later—on a probable mileage charge—replacement? Why not hold this 25 per cent in your own pocket during the two or three thousand miles, and avoid arguments with some tire adjuster. Then if you are ready for another tire—over half the price is in your pocket to purchase another VULCAN tire.

The VULCAN is a good tire, honestly made by a well known manufacturer. They will give good service and are worth the price.

Just try our plan—let the user furnish the guarantee. It works fine and saves money. Or—we will make you this proposition—If you want a Guaranteed tire we will guarantee the VULCAN at the 25 per cent additional charged by manufacturers of other guaranteed tires and will make all the adjustments ourselves.

BELMONT WINS ST. LEGER

DONCASTER, Eng., Sept. 11.—August Belmont's Tracery, ridden by Bellhouse, today won the St. Leger, the last of this year's classics and second in importance among English races to the Derby alone.

As a social event the race was a distinct fizzle, owing to King George's eleventh hour decision not to attend. Court officials deny warmly that Queen Mary's influence was responsible for his absence, but most people believe, nevertheless that it was.

Those who are slow to wrath should make fast friends.

LOUISVILLE, Ky., Sept. 11.—Famous show horses of Colonel Harry Weissinger, millionaire tobacco manufacturer, were barred from the Kentucky State fair today by the state commissioner of agriculture. Backslider

from Wellville

to Dingbat-Town

A slide—

from health to ill-health

A great many people have tried the slide, who didn't know exactly what they would get in "Dingbat-Town."

The coffee drinker is quite certain to get some kind of a "bat." It may be in stomach, liver, heart, bowels, eyes, kidneys or some other organ, for the bad effects of the caffeine in coffee, locate in a variety of different organs in different people.

Many persons who knew this some time ago quit coffee and commenced Postum.

Then, because they found trouble in having Postum prepared suitably at hotels and elsewhere, they gave it up and went back to coffee, thinking, "Now I am well and can stand it."

So they became backsliders and when they slid into "Dingbat - Town," symptoms of the old troubles began to show again, they found it difficult to return to Wellville.

Now comes

Instant Postum

as one sure way to get back.

Instant Postum is in powder form—made from regular Postum and contains the same nourishing ingredients;—yousimply stir a level teaspoonful into a cup of hot water and instantly have a perfect cup of Postum; it has a delicious mellow flavour and is free from the coffee drug, Caffeine.

It can be made anywhere that hot water can be obtained; in hotels, on the train, in the office—its high, rich quality is constantly uniform.

Tins holding enough for about 100 cups are sold for 50 cents by grocers. Smaller tins at 30 cents, make about 50 cups.

Ordinary coffee costs about twice as much.

A two cent stamp to cover postage will carry to you a 5-cup sample tin free.

BANKERS DROP ALDRICH PLAN

Lack of Encouragement Given as Reason for Suspending Their Support

DETROIT, Sept. 11.—That the American Bankers' association was discouraged over the manner in which they were being supported in their fight to have the Aldrich currency scheme adopted is given today as the cause for the resolution adopted at the opening session of their convention here. The bankers by adoption of the resolution suspended further agitation for national banking and currency reform, but will cooperate with other organizations and individuals in devising a more efficient financial system.

The adoption of the resolution followed the discouraging report of the currency commission of the association. It showed that very little encouragement from any source had been given the bankers in their fight, that it would be almost impossible to get any action on the measure in the coming congressional session and that furthermore two party platforms had declared against the scheme while the third did not endorse it.

STOCK IS AID TO SOIL FERTILITY

Humphrey of Badger University Says Animals Are Farm Necessity

MADISON, Wis., Sept. 11.—(Special.)—George G. Humphrey of the animal husbandry department of the Wisconsin College of Agriculture and the Wisconsin Livestock Breeders' association is actively co-operating in a state wide campaign which is being carried on by the stockmen of the state to encourage the production of more and better livestock.

"Livestock farming and soil fertility support and follow each other," declares this well known authority. "The farmer who owns a rich, fertile farm and keeps as many productive animals of two or more classes, as the farm will support is in a position to enjoy a lifetime of continued prosperity and to leave his sons a goodly heritage. Too often men fail to enjoy such a prosperity and do not leave their sons the splendid heritage of a fertile farm.

"Without any intention of doing wrong, many farmers have enjoyed a limited degree of prosperity at the expense of those who are to farm their fields after them. This has been accomplished by the continued growing and marketing of farm crops to such an extent that the soil fertility has become exhausted and the farms have been practically worn out. A retired farmer once, when invited to attend an agricultural meeting, boastfully remarked: 'There isn't much anyone can teach me about farming. I have lived long enough to wear out three farms and I doubt if many men have had any more experience than I.' As a result of this kind of farming, many farms, which were at one time fertile and productive, are today too poor and unproductive to offer any inducement for anyone to own and operate them.

"There must be a permanent agriculture if people are to continue to increase in number and strength and live in a fair degree of prosperity."

It's well to be up to date, but it's foolish to borrow trouble in advance.

Smoking to Cure Deafness.

Harriet Martineau suffered from deafness. One who knew her writes: "The degree of deafness varied, and she tried all sorts of remedies. Under the advice of some scientific person she tried smoking. I had the privilege of providing her privately with some very mild cigars, and many and many a summer night have we sat together for half an hour or so in her porch at the knoll, smoking. She tried this remedy for only a few months, but she fancied it had a beneficial effect upon her hearing."

The Universe an Accident.

The universe, together with its parts, is nothing but a number of accidents, ever changing and being renewed at every breath and linked together in a single substance and at each instant disappearing and being replaced by a similar set. In consequence of this rapid succession, the spectator is deceived into the belief that the universe is a permanent existence.—By Nur-Addin 'Abd-Alrahman Jamil.

A Good Salesman.

"Well, Jingle," said the manager, "did you make the sale?" "Yes," said the salesman. "I couldn't get the darned old machine to run over half speed, but I arranged with one of the town constables to arrest us for exceeding the speed limit, and old Skeezicks fell for it right away."

Black Don't Show to Advantage.

"Yaas'm!" said Miss Gladys Washington, a Vine street belle, in reply to the saleslady's repetition of her request. "I wants a pair o' silk stockings, and—loogy yuh! What's dem things yo' showin' me? Say, 'ooman, what kinduh display would black silk stockin's make on a cullud lay's legs?"—Kansas City Star.

NORTH PHILADELPHIA, Pa., Sept. 11.—A specific announcement that he will make campaign trips weekly from now until election day was made by Governor Wilson while changing trains here today enroute from Atlantic City to Jersey City. He insisted, however, that these trips could not be construed as a "swing around the circle."

The governor will remain most of the day in Jersey City. Afterward he will go to headquarters in New York. He will leave for Syracuse tonight. His visit to Syracuse tomorrow is likely to have an important bearing on the democratic campaign in New York state. His chief speech so far as the public is concerned, will be delivered at the state fair, but the real punch is expected when he addresses the democratic state committee, which will meet at a hotel tomorrow to talk over next month's state convention and to name the state presidential electors.

JERSEY CITY, N. J., Sept. 11.—Positive denial of the rumors that National Chairman McCoombs was to be forced to resign as the result of influence brought to bear by certain financial interests was made here by Governor Wilson today. In a letter to the Brooklyn Eagle, which printed the report, the governor declared positively that McCoombs will remain throughout as the supreme director of his campaign for election and that even now although ill, his counsel is eagerly sought. The Wilson letter says: "My attention has been called to an article in your paper in which it is stated that efforts are being made by certain persons to oust McCoombs as national chairman. These reports are without foundation. I cannot but believe that the false rumors upon which they are founded proceed from some malicious source."

Life's Fullness.

MAYOR ON STAND ANGRERS ALDERMEN

Gaynor as Witness Tells Council Graft Probe Nothing; Left in Worse Case

NEW YORK, Sept. 11.—After summing up the aid given it by Mayor Gaynor and deciding that it was really worse off than before, the aldermanic committee, investigating the relations between organized vice and the police held an extended conference today. It was decided that an attempt would be made to force from Police Commissioner Waldo replies to the various questions to which Gaynor either failed to reply or turned his answer against the committee. The majority members of the committee are furious over the attitude of the mayor while the democratic members, who opposed the investigation because they asserted it was instituted for the manufacture of political capital only, praised the mayor and insisted the investigation will prove futile.

The first round of the fight for delay in the Becker case came today when argument was heard on the motion to appoint a commission to go to Hot Springs to take the testimony there of three witnesses who will swear, according to Attorney McIntyre that Sam Schepps told them that Becker was innocent of any complicity in the murder of Rosenthal. McIntyre is determined if possible to force a delay in the Becker trial until after election.

Following a hearing before Justice Blisshoff in the supreme court today on the application of McIntyre for an order to show cause why a commission should not be named to go to Hot Springs and take testimony of material witnesses in the Becker case, it was believed that the trial of Becker for the murder of Gambler Rosenthal, set for tomorrow, would be postponed.

It was the general opinion in the court house, although Justice Blisshoff reserved decision on the application, that he would surely grant it and that as a result when the Becker trial was called tomorrow before Goff it would of necessity have to be postponed until this commission reports.

A hen whose chicks were removed from her at Playford, Suffolk, England, not long since, discovered a cat with four kittens. She turned the mother out and took charge of the kittens, who are as much at home with her as with their mother, whom the hen allows into the nest to suckle her young.

Daily Thought.

"You must form your wishes and they will continually extend into realities."

Oshkosh clinched the pennant in the Wisconsin-Illinois league yesterday by defeating Wausau 7 to 2, while Racine, the club in second place, lost to Aurora. Baillies, who pitched for La Crosse several years ago, was on the slab for Oshkosh and his effective twirling was a big factor in winning the game which meant the pennant for his team. Joe Killian, former local catcher who is the leader of the Oshkosh club, has the distinction of winning the flag the first year that he managed a club in the W-I. league.

The Red Sox and White Sox mixed things up in the Windy City, and by a freak of fortune Joe Wood got the decision. Bodie's hit in the ninth would have tied the score, but Johnson, a White Sox runner, was hit by it and Wood got the game.

By defeating the Naps the Senators stepped on the heels of the champions, who lost to the Tigers. Washington is in third place today by a difference of one point in the percentage column.

REBELS LEAVING BORDER STATES

Passage of Federal Troops Through U. S. Territory Drives Them from the North

MEXICO CITY, Sept. 11.—A southward move of the rebels in the state of Sonora began today according to news from just south of the border. It is believed in military circles here that their leaders have been warned of the government's request for permission to send federal troops into Sonora by way of the United States and do not intend to be there when the troops arrive.

President Madero and his advisers are relieved at the indications of a cessation of hostilities along the international boundary, but they are worried by the prospect that it will be accomplished only at the expense of increased rebel activity further south.

Reports are current that several more of the men arrested charged with complicity in a plot for an uprising in the capital September 15 have been put to death in prison.

COLLINS TURNS STATE EVIDENCE

Confesses Planting Lawrence Dynamite and Will Tell Whole Story

BOSTON, Sept. 11.—Dennis J. Collins, the Cambridge dog fancier, indicted with William M. Wood of the American Woolen company, and Frederick Atteaux, head of the Atteaux Mill company, will be the star witness for the state when his associates are put on trial.

It became known today that Collins has agreed to tell all he knows, claiming an attempt was being made to shift all of the blame to him.

According to the story he told District Attorney Pelletier, he met both John J. Breen, already fined \$500 for "planting" the dynamite in Boston, and also met Ernest W. Pitman, who committed suicide rather than tell his story to the grand jury. Pitman delivered a package to Breen, Collins says, and Breen after dividing it into a number of bundles, gave them to Collins, who took them to Lawrence and placed each package where Breen told him to and where they were later "discovered" by the police.

District Attorney Pelletier also stated today that he will submit to the grand jury evidence showing that many Lawrence officials knew that the dynamite was to be placed.

SUPERIORITES JOIN DULUTH CAR STRIKE

DULUTH, Minn., Sept. 11.—Early today the carmen on the Superior, Wis., lines voted to join the Duluth car strike. The Duluth Merchants' association has asked for arbitration. During the night the mob got beyond control of the police. Rioters bombarded cars, attacked the car barns with rocks and planks and fought the police. In the melee many were injured by flying missiles. Manager Warren of the car company was felled with a stone.

ST. PAUL, Minn., Sept. 11.—The Duluth police department, through Chief C. M. Troyer, today appealed to Governor Eberhart for help in handling the street car strike situation in that city. Although the chief of police does not ask directly for the state militia, he intimates that troops are needed on the ground that he cannot longer maintain order.

BOTH SIDES READY FOR LICENSE FIGHT

About 150 members of the Retail Liquor Dealers of La Crosse held a meeting at the Frohman hall this afternoon, preparatory to waging a campaign against the increase of saloon license from \$200 to \$500 per year. A special election will be held September 17.

A meeting of the Public Welfare league has been called for Friday night at the First Baptist church, when plans will be discussed relative to the fight over the saloon license question and steps will doubtlessly be taken to boom the vote for the increase.

President L. P. Denoyer's resignation is now before the league and a new president will probably be elected. The executive committee will also be increased from three to six members.

LAST MINERS STRIKE

MEN IN KANAWHA DISTRICT WHO HAD STAYED AT WORK QUIT MINES TODAY

CHARLESTON, W. Va., Sept. 11.—Miners who had remained at work struck today. Their walkout makes the strike in the Paint Creek district complete. For fifteen miles up the valley and three miles across no coal is being mined. The private guards who have been driven out by martial law are now encamped at Kingston and Keeferton. The military has not covered the two towns. The next advance of the soldiers will be there. Parts of Kanawha, Raleigh and Fayette counties are now under martial law.

CONNECTICUT G. O. P. ENDORSES MR. TAFT

HARTFORD, Conn., Sept. 11.—Warm endorsement of the Taft administration was a feature of the platform adopted at the republican state convention here today. His administration is characterized as "one of unostentatious but continuous accomplishment that in its closing year finds the country at the height of prosperity." The Taft tariff board plan is endorsed and the party is pledged to find a way to secure loans on farm property and to advance agricultural interests as well as to the enactment of an adequate workmen's compensation act.

An attempt to incorporate a plank compelling all candidates to endorse the platform in its entirety was voted down and the convention then deadlocked with four candidates for governor with Lieut. Gov. Blakeslee leading with a total of 175 votes.

Studley was nominated on the third ballot.

BUSINESS CHIEFS TALK PROSPERITY

Magnates Returning from Abroad Say U. S. Is on Eve of Unprecedented Wealth

NEW YORK, Sept. 11.—That the United States is on the eve of an era of unprecedented prosperity, was the opinion voiced by a dozen big business men on their arrival here today on the Kron Prinz Wilhelm of the North German Lloyd line. Among them were Reginald C. Vanderbilt, Julius Kruttschnitt of the Harriman lines; Charles B. Elliott of the Philippine commission and Senator George H. Pinkham of Massachusetts.

Kruttschnitt declared that reports he has received from officials of the Harriman lines leave no doubt that the country is certain to have a most prosperous year because of the bumper crops. He denied the report that the Harriman lines planned to expend \$10,000,000 in tunneling the Sierra Nevada mountains as the gain, he said, would not be worth the expenditure.

Commissioner Elliott declared that the Philippines are in excellent shape and that the natives are for the most part now industrious and well contented with American methods of government. For the last two years he has been making an extended study of European conditions and will report his conclusions to President Taft at Beverly shortly.

TAFT PROMISES STATEMENT

BEVERLY, Mass., Sept. 11.—President Taft within the next week or ten days will give out a formal statement regarding the Fisher report on the wearing of religious sect garments by scholars in Indian schools, according to a statement made at the summer White House here. It is understood that the president has had Fisher's report under consideration for several days and that he wants to become thoroughly acquainted with the facts and with the secretary's findings before he makes any statement.

CHAPEL CAR HERE ENROUTE WEST

Sumptuously Equipped Missionary Vehicle to Stay in La Crosse Tonight

The new chapel car, St. Peter, which is used by the Catholic Church Extension society to travel over the country and which is now on its way to Idaho where mission work will be started the end of this month, arrived in the city today from Du-buque, Ia. It will remain here until five o'clock tomorrow morning when it will go to Winona. Any local people who wish to see the car may view it at the C. M. & St. P. railroad tracks on State street.

The chapel car, which was donated to the society by a resident of Dayton, O., is built of steel with a copper roof and is finished in Cuban mahogany. It is eighty-four feet long, one of the longest cars made. The chapel is forty-five feet long with a seating capacity of seventy-four. There are thirty-four pews in the chapel, fastened to the floor and equipped with comfortable kneeling benches. By using the aisles and the observation platform, thirty more people can be accommodated in the car. An altar and confessional are placed in the front of the chapel. The remaining space in the car is used for living quarters.

Rev. William D. O'Brien of Chicago, vice president of the Catholic Church Extension society, is in charge of the car and he is accompanied by George C. Hennessy, superintendent of Chapel cars. They will do mission work in Idaho and other parts of the west and north-west.

COP REFUSES TO STOP CHARIVARI

ONALASKA, Wis., Sept. 11.—(Special.)—When a gang of small boys started in to charivari him last night after his return from his wedding trip, James Anderson sallied forth from the house of his father-in-law, John Munson, and dispersed the youngsters with a stream from a garden hose.

The youngsters came back shortly, re-inforced by their parents, who joined in the noise making. The newlywed called the Onalaska police force.

When the police force, in the person of Marshall Wall, appeared, it sat on the front steps and listened to the noise. The force refused to disperse the crowd, alleging it was no violation of the law to serenade a bride and her husband. The force sat on the steps until the crowd grew tired of noise making with no visible results in the way of "hush money" and went home.

Siberian Land Threatened.

Extensive tracts of land in Siberia are threatened by the encroachment of the great Gobi desert, and a plan has now been drawn up for a series of forest ramparts to hold back the salt and drift. The only effective defense, according to the report of agronomists sent to survey the region is in tree belts at least two miles broad. It is proposed to plant one of these from Samara to the Caspian sea, while others are recommended extending in intervals of about 40 miles right up to the Chinese frontier.

RAILROAD ASKS TO BE PROTECTED

Southern Pacific Asks the State Department to Take Care of Mexican Property

REBELS MOVE TO SOUTH

Having Lured Federals Into North, Orozco and Men Start for the Interior

NEW YORK, Sept. 11.—The Southern Pacific Railroad company here announced today that a formal demand has been made on the state department in Washington for protection of the company's interests in Mexico.

Simultaneous with the announcement it was stated at Phelps, Dodge & Co. that Walter Douglas, general manager of that company's interests in Arizona and Mexico, was reported to have been captured by Mexican rebels between Agua Prieta and Nacozari. This has also been called to the attention of the state department.

Detailed accounts of the damage to the Southern Pacific property as the result of the insurrection in Mexico were received by Chairman of the Board Lovett today. Nearly fifty bridges on the Sonora railroad were wrecked and hundreds of feet of tracks was destroyed. The report gives a new account of the attack on a passenger train and several trains on Saturday and Sunday. The telegram dealing with this was as follows:

"Saturday night, Yaquis attacked and looted Colonia, killing nine and wounding seven, the attacking party numbering about 100, with 300 to 400 a short distance away. Same night band of Yaquis attacked Reallito on Yaqui river branch, looting the town, Sunday afternoon 425 rebels under Campa struck the Naco mine at Villa Verde, captured passenger train, put passengers in one coach, carried it to within seven miles of Naco and dropped it into Naco by gravity. Then they burned remainder of train, destroyed all bridges between Villa Verde and Naco. Also burned bridges south of Villa Verde."

WASHINGTON, Sept. 11.—Predictions of army officers that the Mexican rebels would march to the interior of the republic as soon as the federals had been lured to the border were fulfilled today. Dispatches from Brigadier General Steever at El Paso reported the beginning of the movement. Steever reports that 700 rebels under General Rojas and Campa are moving southward, raiding ranches and cutting off railroad and telegraphic communication. State department reports indicate much rebel activity in the south. Engagements occurred frequently. Lawlessness is increasing in Guanajuato and Michoacan and to a lesser degree in Jalisco.

STEALS PA'S AUTO; GETS TWENTY DAYS

Lester Schaefer, arraigned for the third time within a month on the charge of stealing his father's automobile, pleaded guilty before Judge John Brindley yesterday afternoon and was sentenced to twenty days in the county jail. John Schaefer, his father, had chained the automobile to the floor of his garage, but the boy filled the chain. He served a ten day sentence a short time ago for the same offense, and previous to that time his father paid a \$5 fine to procure his release after he had a warrant sworn out for his arrest.

have five thousand competent graduates next June I could locate every one of them by the following September in first class positions. The talk about "too many bookkeepers and stenographers" is pure bosh and is the talk of ignorant or misinformed. There are always too many incompetents and "halfbakes" in every walk of life, but there never has been and never will be too many skilled and proficient office people. I can advertise for five people at \$10 per week and get fifty applications. I can advertise for one \$1,500 a year man or woman and not get a reply. If we had five thousand competent office people we would simply have to increase our field of actual and aggressive work in securing positions—a simple matter. It is not a question of whether people believe it or not, I KNOW, and the W. B. U. already publishes the largest list of employed graduates in the United States, and today it has more employed graduates than the combined schools in the states of Wisconsin, Minnesota, North and South Dakota. Not only that, but do you know that we have during the year a larger attendance right here in La Crosse than any two schools in Milwaukee, St. Paul or Minneapolis? We have students come right through these cities to attend the W. B. U."

It provides for fifty-six miles of subway and 131 miles of single track at estimated cost of \$36,257,000 for construction and \$34,844,000 for equipment.

STUDENTS SETTLE DOWN FOR WORK

Schedules of High School
Classes Complete; Big
Year Planned for
Athletics

All the classes at the high school are now in excellent running order, the students having their schedules arranged. Things would have been in full swing sooner had there been room prepared for the great overflow of new students. One of the few unoccupied rooms has been fitted out with seats for an assembly room and placed in charge of Miss Ada Wilkie, who is taking charge of German and English classes.

The manual training department is again in full working order and the boys are starting out on some more of their useful work. Six new teachers' desks and six new tables for the lunch room will be made by the boys in this department this year. Last year the boys made twenty drawing tables for the mechanical drawing room besides the regular work they did in mechanical drawing and wood work. The manual training department has proved to be a very useful as well as beneficial addition to the high school as it has saved them the expense of paying for these articles.

The athletic side of school life is progressing very favorably under the able leadership of Otto Seller. There are about forty or fifty men out for football and all are working enthusiastically with Mr. Seller for a state championship football team this year.

There is more and better material on the football squad this year than there was last year and the year before and although they did not win the state championship they were serious contenders for the honors each time.

There is another side to high school life which is progressing very rapidly, the public speaking side of student activities. There are three well established literary societies for boys and the same number of girls' societies. Last year Guy Jolliffe won second place in the state oratorical contest which is a remarkable showing for the support he received before he went to the state meet at Eau Claire. The interscholastic debate teams were not as successful but practically all of the men who were on these teams will be back this year. The orators are sure of

making a better showing even than last year with this second year's training under Miss Mae Dunn, who has been coaching state championship orators in the state for the last three years. The Lincoln Douglas and Wendell Phillips Debating societies hold public meetings every Friday night in the high school.

There are a large number of students from out of town who are taking the advantages offered them in the local high school, not only in athletics and forensics, but also in the line of subjects. The following list of new students has been added in the last few weeks:

Azel and Maynard Barney, who formerly attended the Vermont academy at Sackston, Vt.

Genevieve McIlquhn of Chippewa Falls.

Donald and Florence Clark of Platteville, Wis.

Herbert and Gladys Wheaton of Hokah, Minn.

MILWAUKEE, Wis., Sept. 11.—Under most favorable weather conditions, and with a patronage that exceeded the hopes of the officials, the 1912 Wisconsin state fair opened yesterday morning.

No especial ceremony marked the opening. The order to open the gates was given by President O. G. Rewey at 9 o'clock and a few minutes later the first state fair visitor strolled into the park.

All the features of the day were given as scheduled.

Nothing marred events, except a slight rain storm late in the afternoon, which caused the crowds to scurry for cover. All the rain did was to cool the overheated atmosphere.

This gives Gilbertson a lead of but seventeen over Frear in that county. A dispatch from Eau Claire gave Frear a lead of thirty-three outside of Buffalo county. According to these later figures Frear has a lead of but sixteen. The second choice count will probably determine the result.

THEATRE NEWS

Merry Widow Re-MARRIED

"The Merry Widow Re-MARRIED," a new Viennese operetta of the effervescent type, which will be revealed at La Crosse Theater on Saturday, Sept. 14, matinee and night, is smashing in its style and dashing in its manner. It is one of those entertainments that abound in big song hits, unusual dances and unique scenes. It is from the pen of Max Harnisch, as to book and Carl Von Wegern, as to music. The book tells a complete story, which in itself is good entertainment. The music is bright and brisk and full of dash and spirit. It is tuneful and melodious and has a swing to it that makes every one whistle and hum as soon as it is heard.

The scenes are laid in Montenegro, but there are Turkish features and Parisian touches to it, that makes it cosmopolitan in scope. The costumes vary from the native Montenegrin dress to the Turkish garb of the harem and the latest Parisian creations. The dances take in some of the latest sensations, and also some of the wildest of the folk dances of Montenegro, which resemble the mad dances of the Cossacks of Russia. There are Turkish dances also, which lend a unique variety to the entertainment. The songs also have a touch of the Montenegrin wildness, and they are full of spirit and vigor.

"The Divorce Question"

The intense heart-gripping play which comes to the La Crosse Theater on Sunday, Sept. 15, matinee and night under direction of Rowland Clifford, is a striking object lesson proving the divorce does not remedy domestic unhappiness—the author firmly contending the Catholic church is absolutely right in its stand on the divorce laws of the present day.

The particular couple instanced in a vain attempt to secure mutual conditions of betterment sacrifice the welfare of their children—leaving the offspring practically parentless—just at the period when they need the care of those who are responsible for their being.

The play is a series of stirring scenes and climaxes and a noteworthy cast portray the various roles.

Chauncey Olcott

Miss Edith Browning, Chauncey Olcott's charming young leading woman, is now filling her second engagement in support of that popular Irish actor. Miss Browning appeared for the first time with Mr. Olcott in "Barry of Ballymore," a couple of years ago but was compelled to retire from the stage on account of illness at the close of that season and is now making her return to the boards with her health completely restored. Prior to her first engagement with Mr. Olcott, Miss Browning won considerable distinction as the erring daughter in "The Man Who Stood Still," with Mr. Louis Mann. Miss Browning is an actress of great skill and finesse and has proven herself to be one of the best leading women Mr. Olcott has ever had. Sept. 17 and 18 La Crosse Theater.

MARTIAL LAW IS LIKE LONG AGO

Inhabitants of Kanawha District Are in Same Condition as in Mediaeval Days

GENERAL IS ABSOLUTE RULER

Military Governor-General Elliott Has More Power Than the King of England

CHARLESTON, W. Va., Sept. 11.—The Kanawha river divides the government of the United States from the benevolent military satrapies of Cabin Creek and Paint Creek, fifteen miles from Charleston, both of which are in West Virginia, but at present not of it; the only territory within the United States where the constitution does not rule.

By decree of Governor Glasscock the Creek county is in a state of war; until civil law, destroyed by the anarchy of the mine guards, is reconstructed, martial law—the laws of war—will prevail.

Martial law sounds romantically terrifying. It's romantic, but not terrifying.

Martial Law Fun

It is even fun. The creek folks enjoy it. In the Coal creek country it is blessed as a deliverance. It has banished the mine guard and his automatic revolver; it has taken from the hands of the coal barons several machine guns with which the barons had planned to bust the strike—machine guns that could shoot lead with the cumulative effect of a hail storm.

It is fun—this martial law—like grandma's hoopskirt dress, like great great grandpa's steel riveted suit of armor, and other antiquities. It's a free trip into the morning of Anglo-Saxon civilization, way back before the days of King John, who was the father of habeas corpus, the right to which is one of the things you lose the moment you step out of the United States into the "state of war."

Immediately as you leave the skiff that carries you across the Kanawha you are stripped of all your constitutional guarantees, your revolver and the bottle of whisky, if you have any.

The constitutional rights you lose as you walk into the benevolent and even gentle military despotism, and which four thousand driven men of the mines have gladly sacrificed temporarily are:

Rights Lost

The right of free speech.
The right of assembly.
The right of trial by jury.
The right to carry arms.
The right of habeas corpus.
That's martial law.

You are ferried across the Kanawha, an American citizen, and, presto! you're nothing. You can't make a speech though your soul may be as sure as eloquence; and if you and your friend and your friends' friends stop to discuss the weather or the sylvan beauties of Paint Creek, you are in unlawful assembly that may land you in the guardhouse to be tried, not by a jury, but by six soldiers constituting a court martial and the supreme court of the United States could not habeas corpus you out.

The methods of punishment for crimes and misdemeanors under martial law are entirely within the discretion of the military court. All statutory forms of punishment are null.

Possibly the czar of Russia, or maybe the president of Nicaragua, have more authority than Adjutant General Elliott, but King George of England, the president, are mere one-horse power rulers compared to Elliott, governor general of 16,000 men, women and children. His kingdom is the smallest in the world—fifteen miles long and four wide.

The court house is in a tent. The court martial is in continuous session, Colonel C. F. Joliffe, chief justice, and Lieutenant Colonel Geo. B. Wallace, judge advocate or prosecutor.

"We are going to make life safe along the creeks," says Wallace. After the soldiers, what?

A commission investigating mining conditions in the mines will attempt to solve that problem. It consists of Bishop P. J. Donohue of the diocese of Wheeling; Captain S. L. Walker of the state militia, and Tax Commissioner Blue. Bishop Donohue announced today that not only the guard system but also the living conditions of the miners are to be investigated.

The strike now depends on who can hold out the longest.

Miners Can Stick

The miners are being supported through strike benefits, contributed by all the miners in the United States. They can hold out a number of years.

The mines are standing idle. By decree of the governor no strike-breakers can be imported. The vast properties are producing nothing and are suffering loss to depreciation.

Many mine owners have volunteered to aid the commission in its investigation. There are sixty mine operators in the territory, all opposed to martial law. They held that it was not necessary and that the guards were required to protect mine property from irresponsible rioters.

The Answer To Every Woman's Question "Can I Make Myself Beautiful?"

"Certainly Says Valeska Suratt, the Venus of the American Stage, Famous for Her Self-Made Beauty. She Has Demonstrated to Thousands That It Is Easily Possible to Improve Vastly Even Upon Nature Herself."

In this article, Miss Suratt, after an absence of several weeks in preparation for her theatrical engagements during the coming season, resumes the beauty-chats and revelations of her own secrets of beauty which have been received with such intense enthusiasm by the readers of this newspaper.

By Valeska Suratt

MY short retirement has urged a sweet return, and, to paraphrase a poet, welcome to Lohachar, welcome to Jean, and Bright Eyes and Miss Worried. I am indeed happy to be back among you all again. There is something inspiring in the assemblage of letters that I find awaiting me. In them are many sounds,—there are the small voices of gratitude so intense that they restrain themselves,—there are the beseeching plaints sounding in unison like the droning of bees, and there are the voices of confident women entranced over success actually being won.

According to these letters, the mirror, in nearly every case where instructions were followed, has reflected the truth of my prophecies. I must emphasize the fact here before I go any further that one of the secrets of your success is in the liberal use of the preparation you are using. The more of it you use at one application the better and more prompt will be the results.

No matter which preparation you use do not merely pour a little bit in the palm of your hand, or take some up on the tip of one or two fingers, but "put it on thick." Give your pores the benefit. The cost of the ingredients of any of the formulae I have given are certainly reasonable enough to allow anyone, even with a very moderate purse, to indulge freely in the use of these secret beautifiers.

INDIAN COMMISSIONER QUILTS

ERADICATOR OF WRINKLES.

DISHEARTENED.—Your husband is right. It is your and every other woman's duty to preserve the charms which nature first gave you. No man likes to see wrinkles on a woman of your age, nor ought it to be so. Use the following formula and you will be surprised at the result on crow's feet, wrinkles and deep lines.

Pour one-half pint of very hot water, not boiling, in a large bowl. Place this bowl in a pan of water on a slow fire. In a few minutes add two ounces of epsom and continue stirring until all is dissolved. At first it will look like jelly, then it will start to cream. When it does this, remove it from the fire, add slowly two tablespoonsful of glycerine and stir constantly until cold. Then keep it in an air-tight jar. You should be able to get epsom at any good drug store and it should not cost you more than fifty cents.

Apply this cream every morning with the tips of the fingers, after you have washed your face thoroughly with warm water and soap. Plaster your face very liberally all over with it, around the eyes, on the forehead, on either side of the mouth, everywhere. After you have applied it, don't merely rub your face all over as though you were handling a baby's skin, but dig right in. Take up the flesh in your fingers and pinch it, squeeze it, roll it. Do this for a few minutes, until the cream disappears. Then apply your complexion powder.

BUST DEVELOPER

CELIA.—A woman should not lose her girlish charms because she becomes a mother. A faithful attention to herself will not only retain but bring back the development she may have lost by using the following very effective formula:

In a half-pint of cold water, dissolve two ounces ruetone and half a cup of sugar, all well mixed together. Of this, take two teaspoonfuls three or four times a day in a wine glass of water, after your meals. The ruetone will cost you one dollar at the drug store. You will assist the development a great deal by massaging the bust with the epsom formula given above to "Disheartened."

DIRT IS DEATH TO HAIR

MRS. B. L. O.—I have never had to wear switches, rats or puffs. Besides a hair tonic as a nourisher, it is necessary to keep the scalp absolutely clean. For this I use the following which cannot be excelled as a shampoo. It takes out the scurf, scalp scales and dandruff, cleans out the scalp pores and lets the hair breathe new life.

like to have my case postponed for a week. My lawyer is sick?"

"But," said the magistrate, "you were caught with your hand in this gentleman's pocket. What can your counsel say in your defense?"

"Exactly so, your honor; that is what I am curious to know."—Green Bag.

A Harmony of Opinion

She was holding the teething ba-

"If eyes were made for seeing, then Beauty is its own excuse for being."

—Emerson
It also makes the hair fluffy and silky. Dissolve one tea-

spoonful of epsom in half a cup of hot water. When entirely dissolved and the solution has become lukewarm, pour onto the hair and shampoo in the usual manner. It makes an exquisite lather. After rubbing it well into the scalp, so it is perfectly clean, wash the hair thoroughly with plenty of warm water and rinse with cold water. The druggist will let you have the epsom for not more than twenty-five cents.

AN UNSURPASSED HAIR DESTROYER

WINIFRED.—Of all things never use scissors for cutting off superfluous hairs. It makes them grow out that much faster, become stiff and wiry, and they become so much more noticeable. The usual hair removers on the market I have not found at all satisfactory. I use constantly the following preparation. It leaves the skin always soft and clean, never spots, irritates or reddens. It is really wonderful in its action, destroying hair completely in a few moments. Many women have merely a down on the arms and face and imagine they don't need a hair remover. They do not realize what a wonderful difference there would be in their appearance if this down, even light as it may be, were removed.

Get at any good drug store one ounce of simple sulfur solution. It will cost you one dollar, but it will last you quite a while. Apply this solution freely with the finger tips on the hair you want removed. Keep the hair moist with it until it has actually dissolved. This will take but two or three minutes. Then wipe off with a warm, damp cloth and wash the skin with warm water.

This hair remover may be used on the tenderest skin. Use this and no one will ever know you use a hair remover.

LARGE PORES

JANET.—I never advocate the steaming of the face. It has a strong tendency to make the pores habitually large and it makes the skin coarse. It does more to ruin beauty than anything I know of. You

Valeska Suratt

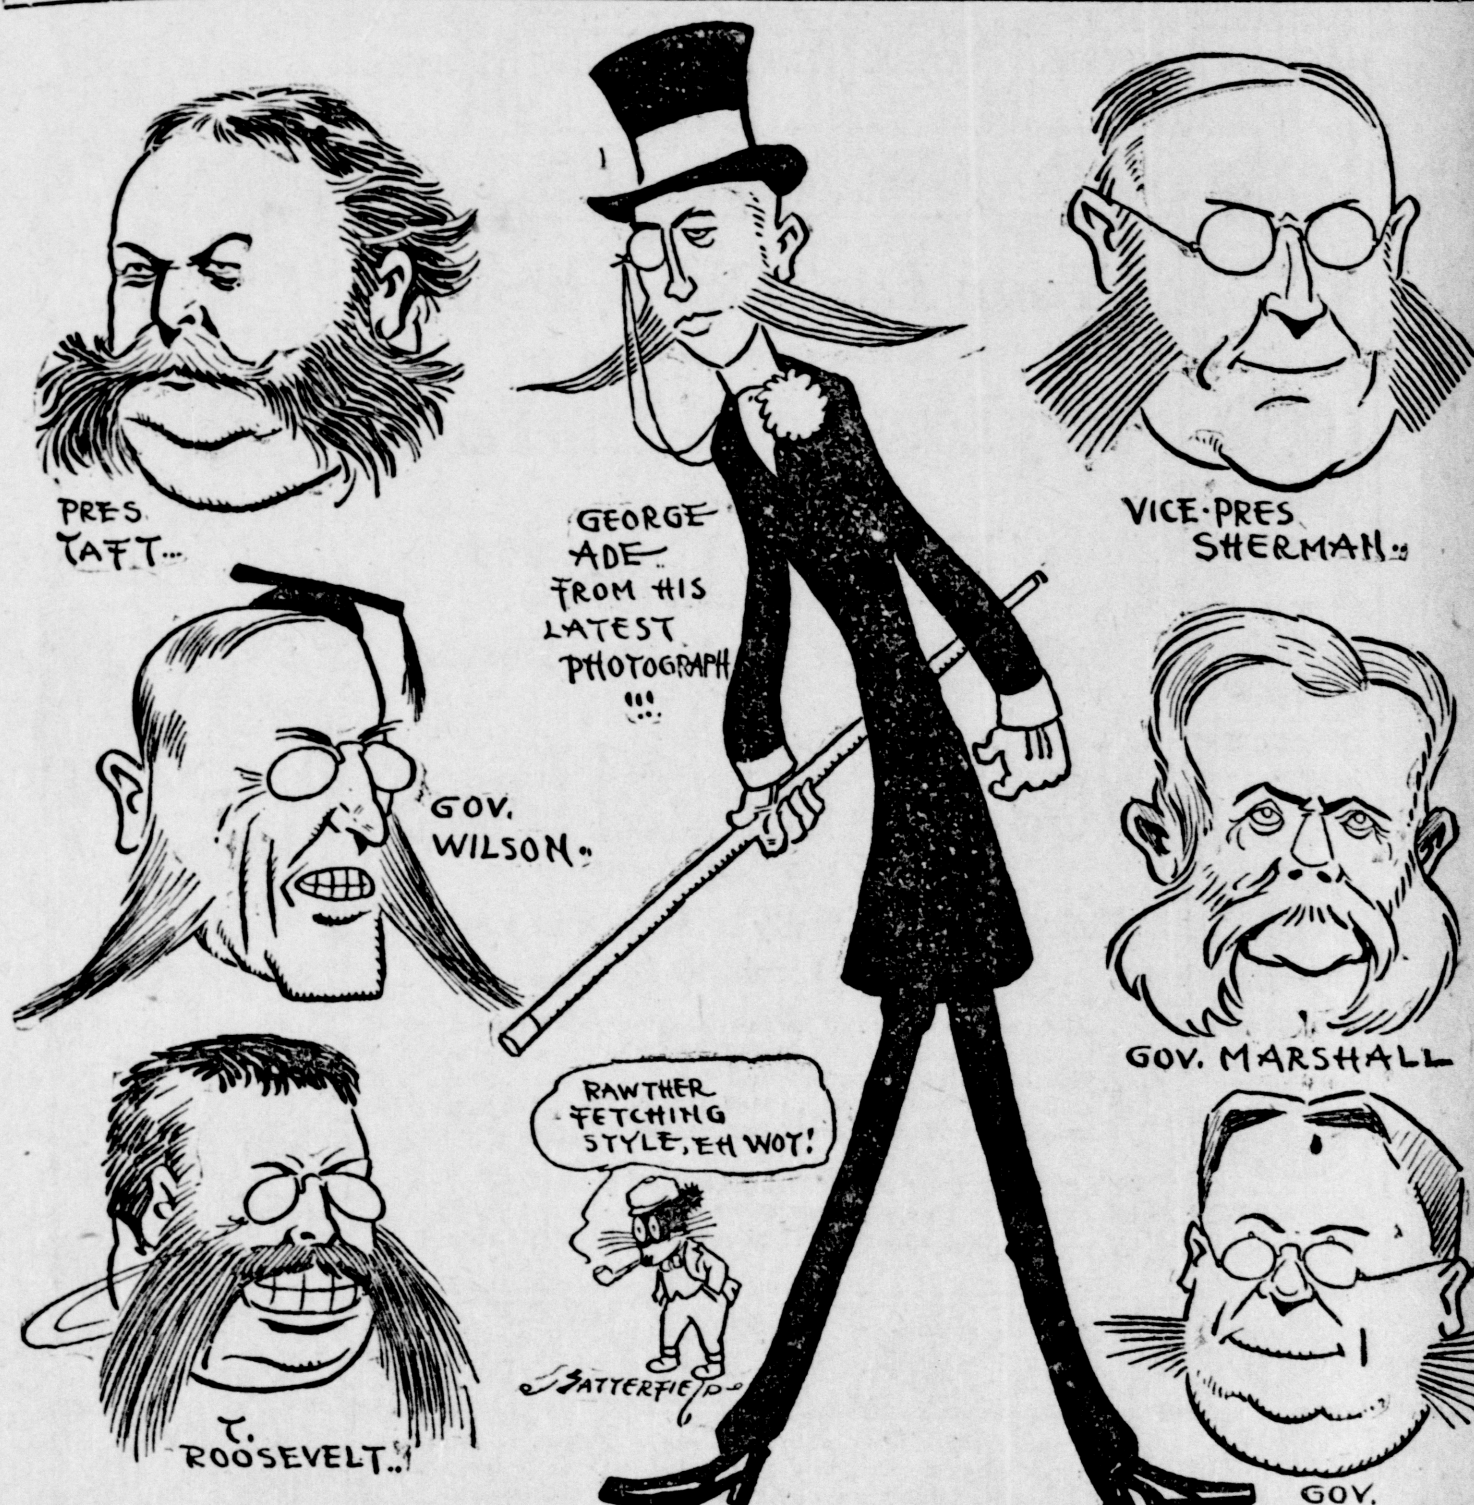

will find the formula given to "Disheartened" ideal for putting an end to this condition. Vigorous circular massage, frequently during the day is necessary in this case. Be sure to use a very liberal amount of the preparation. Keep it up for a reasonable time and you will see a very marked difference.

SALLOW COMPLEXION AND PIMPLES.

MISS A. L. S.—A sallow or muddy complexion can be easily gotten rid of by using the following formula:

Dissolve twelve ounces of granulated sugar in one-half pint of water, and add one ounce of sarsene, and mix the whole together thoroughly, then add more water to make a pint. Sarsene is a liquid which you can get at the drug store by the ounce. Get it in the original package. Take one or two teaspoonfuls of this mixture three or four times a day, with a little water if desired. This is absolutely safe. You should never attempt to pick or fool with facial eruptions. It always makes them worse.

WILL IT COME TO THIS?

An invasion of America by the British whiskers of the style of 1830 has been predicted by George Ade the humorist.

SHIP LAW NOT PERFECT
WASHINGTON, Sept. 11.—Before announcing approval of the revision of the law following the Titanic disaster, Secretary of Commerce and Labor Nagle today declared it will be impossible to provide full safety for travelers aboard ship until congress gives the department control of the crews of vessels. Lifeboat regulations which do not specify the character of the men who man the boats, said the secretary, won't do. Too many of the crew are not sailors.

Chicago Grain Review
CHICAGO, Sept. 11.—A weak start in the wheat market was overcome before noon today and at noon an advance was noted in all wheat deliveries. Liverpool cables told of fine weather in the United Kingdom but this bearish feature was offset by reported heavy rains and bad weather from Russian and French wheat belts.
Continued fine weather and the government crop report continued to make themselves felt in the corn market and all grades displayed heaviness.
Oats opened a shade higher but prices later fell off in sympathy with corn.
Provisions ruled firmer.

ELECT ELLIOTT TO MANAGE ATHLETICS

A meeting of the Boys' Athletic association of the high school to elect another faculty manager of athletics to take the place of Prof. H. Kline, who was elected last week

and who cannot accept on account of other duties, was held last night. Prof. P. Elliott, who was elected president of the association at its last meeting, was elected to take the position. He accepted and will take charge of the work immediately.

The Cubs applied themselves in an unrestrained manner toying with the tail-ending Braves with only one motive—to amuse the fans. It was a loose exhibition on both sides. Judging by the quality of the product, it is no wonder we get so much free advice.

NEW YORK OPPOSED TO PRIZE FIGHTS

NEW YORK, Sept. 11.—Prize fight managers in this city were greatly troubled today and there was a general feeling that big bouts between recognized champions cannot be held here. The action of Governor Dix in serving notice on Sheriff Julius Harburger and District Attorney Whitman that the bout between Packey McFarland and Ad Wolgast was a prize fight pure and simple, and must not be permitted, has dazed the promoters.

It is taken to mean that the governor has determined to nullify the present law by insisting on the enforcement of the penal code provision making prize fighting a felony and if he maintains this attitude on all big matches, only the second and third raters can be brought together in various clubs.

Dix has always taken the position that Senator Jim Frawley bunched him into signing the present law. He insists that he was told it was for the benefit of amateurs and when he found that it apparently legalized prize fight he called on the legislature to repeal it. His recommendations were ignored, however.

TO REORGANIZE LEAGUE

SOUTH BEND, Ind., Sept. 11.—Realizing the necessity of reducing the 12 club Central league to an eight club circuit, it was arranged here today to hold a meeting early in October at which the league will disband and reorganize with only eight clubs in the circuit.

NATIONAL LEAGUE

CHICAGO, 6; Boston, 4. BOSTON, Sept. 11.—The Cubs began their final stand in hopes of overhauling the Giants by taking the first game of a series with the Doves here yesterday by the score of 6 to 4. Score: R H E Chicago . . . 102000201—6 11 1 Boston . . . 030001000—4 9 2 Batteries: Cheney and Cotter; Dickson, Brown and Rariden.

Pittsburg, 11; Philadelphia, 4. PHILADELPHIA, Pa., Sept. 11.—Pittsburg hit three local pitchers to all corners yesterday easily defeating the Phillies 11 to 4. Wagner, Wilson and Adams led in the heavy artillery work. Score: R H E Pittsburg . . . 004020230—11 19 0 Philadelphia . . . 000400000—4 9 2 Batteries: Adams and Gibson; Moore, Finneran, Nicholson and Dooin.

New York, 4; St. Louis, 3. NEW YORK, Sept. 11.—The Giants opened a series with the Cardinals yesterday by annexing a 4 to 3 victory. Konetchy made two hits in four times up. Score: R H E St. Louis . . . 100010010—3 10 1 New York . . . 01010200x—4 10 2 Batteries: Sallee, Geyer and Bresnahan; Marquard and Wilson.

Cincinnati, 10; Brooklyn, 4. BROOKLYN, Sept. 11.—Hitting Knetzer and Allen almost at will, the Reds walloped the Dodgers in the series opener yesterday, 10 to 4. Score: R H E Cincinnati . . . 250001101—10 15 3 Brooklyn . . . 300000001—4 13 6 Batteries: Fromme and Clarke; Allen, Knetzer, Curtis and Miller.

AMERICAN LEAGUE

Boston, 5; Chicago, 4. CHICAGO, Sept. 11.—Boston licked Doc White and the White Sox, 5 to 4, in the opening game of the series. The White Sox slammed Joe Wood for twelve safeties and had him wabbling in the ninth when Hall was sent to his rescue. A double in the ninth, followed by a single, toppled Wood from the mound. Chicago made a run off Hall, but could not get over the tying rally. Score: R H E Boston . . . 030010100—5 10 4 Chicago . . . 000001021—4 12 1 Batteries: Wood, Hall and Cady; White Benz and Schalk.

New York, 8; St. Louis, 3. ST. LOUIS, Sept. 11.—The Yankees took the first game in a series for the cellar championship yesterday, 8 to 3. Hamilton and Allison were hit hard, while their support was poor. Score: R H E New York . . . 022010120—8 15 1 St. Louis . . . 010000020—3 10 3 Batteries: McConnell and Sweeney; Hamilton, Allison and Krichell.

Washington, 11; Cleveland, 2. CLEVELAND, Sept. 11.—Washington took the first game of the series here yesterday, 11 to 2, batting three Nap pitchers out of the box. Cashion pitched fine for the Nationals. The batting of Lajoie was the feature. Score: R H E Washington . . . 305000030—11 17 1 Cleveland . . . 000000200—2 8 2 Batteries: Cashion and Henry; Blanding, Steen, Wolf, Naegele, Nahr and Carisch.

Detroit, 8; Philadelphia, 6. DETROIT, Mich., Sept. 11.—Manager Jennings put an all bush team in the field yesterday. The combination copped the game, 8 to 6, because the manager of the Elephants made a fatal mistake of substituting Kid Brown for Kid Crabb in the box. Score: R H E Philadelphia . . . 101000310—6 5 1 Detroit . . . 00002240x—8 11 4 Batteries: Crabb, Brown, Colvelskie and Lapp; Jensen, Lake, Stanage and Onslow.

AMERICAN ASSOCIATION

KANSAS CITY . . . 010040200—7 12 4 St. Paul . . . 000001020—4 2 4 Batteries: Powell and James; Dauss and Casey.

FAN-ATICAL FANCIES

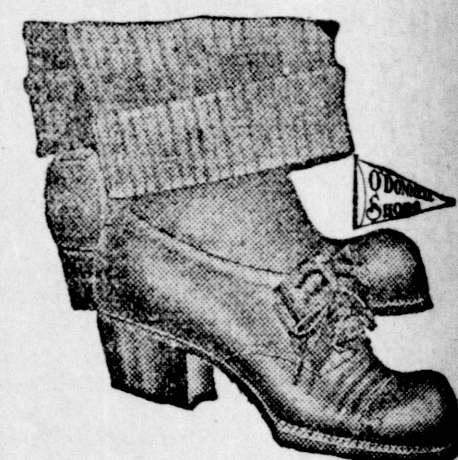

The promised and much looked forward to pitchers' battle between Joe Wood and Ed Walsh was not staged yesterday for the Boston star was opposed by Doc White, the White Sox southpaw, instead of big Ed. A battle between Wood and Walsh would draw almost as large a crowd as did the one between Wood and Walter Johnson, which the Hub star won 1 to 0. Wood won yesterday, 5 to 4, although Chicago knocked him off the slab when they started a rally in the last inning. Manager Callahan is reported to have made the assertion that he considers Walsh the peer of either Johnson or Wood but that looks like a rather broad statement. Although there is no doubt but that Walsh is one of the best pitchers in the country and can probably work oftener than many, the spitball twirler will have to go some to beat either Wood or Johnson, who are the terrors of all the batsmen in the league.

The surprise of the 1-12 baseball season has been the failure of the Philadelphia Athletics to repeat and win the pennant for the third successive time. At the beginning of the season, Mack's men were conceded to have the flag won but it is apparent that the strength of the Boston club was underrated for this team has decisively beaten Philadelphia and they have the best of the champions in their season's series. It looks as if the Athletics' poor showing is because of the fact that Bender and Coombs, the mainstays of the team in former years, have not been as effective as formerly and they have been hammered hard by opposing teams. Plank has been as steady as any of Mack's pitchers but with Bender and Coombs unreliable the club has apparently gone to pieces. Their pitching was undoubtedly what kept them in front in former years for the Athletics have been hitting and fielding just as well as they ever did.

DOES THE VICTORY BELONG TO WOOD?

CHICAGO, Sept. 11.—There was much speculation here today whether "Smokey Joe" Wood who officiated on the mound for the Red Sox yesterday, will be credited with his

fifteenth straight win. In the final half of the ninth, with the score 5 to 3 in favor of the coming champions, Mattick opened the inning with a double and Lord singled, toppling Wood from his perch. Hall relieved him and the White Sox rally fell one short of victory.

President Johnson of the American league refused to state early today whether Wood would be credited with the victory. He said he would have to hold his decision until after he had reached his office and "looked over the dope."
